GET MORE VALUE WITH FLEET

Our Fleet Program offers its members access to world-class vehicle lineups across five capable and trusted brands (Chrysler, Dodge, Jeep®, Ram and FIAT®), as well as exclusive discounts, incentives and exceptional priority service. With Stellantis Fleet & Business Solutions, you are always first in line.

EXCLUSIVE MEMBER DISCOUNTS

DEDICATED CUSTOMER SERVICE

EXCLUSIVE MAINTENANCE
AND SERVICE PROGRAMS

To become a Fleet member, you must currently be operating 15 or more vehicles or be looking to purchase or lease a minimum of five vehicles. If eligible, you will be given access to our online form and subsequently receive your FAN, which unlocks exclusive discounts, programs and perks.

Once you have received your FAN, you will be eligible to enroll for a web ID. This ID gives you access to our customer hub where you can stay up to date on your vehicle orders and member news.

FLEET POWERTRAIN CARE 5-YEAR/100,000-MILE LIMITED WARRANTY EXTENSION* (\$0 DEDUCTIBLE)

A Limited Warranty is provided to owners of 2016 through 2023 model year Chrysler, Dodge, Jeep, Ram and FIAT vehicles (excluding vehicles equipped with diesel engines) purchased specifically for Fleet Government Bid/Leases and Fleet Commercial/Lease orders only.

MOBILITY SOLUTIONS FOR THE ENTIRE FLEET

Connect Fleet YOUR CONNECTED FLEET MANAGEMENT PROGRAM

Connect Fleet lets you manage your entire fleet in real time. This intuitive platform delivers up-to-date data via your vehicle's embedded electronics. That means you can track mileage and fuel consumption to reduce operating costs. Plus, you can leverage geolocation to locate stolen vehicles and manage emergencies.

Discover the benefits of this ready-to-use platform that offers quick access and insights to essential data from your company vehicles.

DIRECT API INTEGRATION WITH YOUR SYSTEM

Connect Fleet offers a custom-made approach to your data needs facilitated through the Free2move Application Programming Interface (API) integration. It allows you to link your vehicle data to your existing system.

USE YOUR EXISTING DATA PROVIDER

We continuously work to increase the number of authorized providers. Your current Telematics Service Providers, Fleet Management Service Providers or Fleet Management Platform may already have been approved.

Optimizing the total cost of ownership, monitoring fuel consumption and transitioning to more energy-efficient vehicles are all concerns for fleet owners and managers.

Free2move Connect Fleet is a simple and efficient fleet management platform that provides a way to monitor, analyze and optimize your fleet. No matter what the fleet size, Free2move Connect Fleet can help you control costs and maximize your fleet activity.

FEATURES

- Geolocation
- Vehicle Info and Health Status
- Maintenance Alerts
- Mechanical Alerts

WHY CHOOSE FREE2MOVE CONNECT FLEET?

- No Aftermarket Device Installation: Vehicles with embedded technology are ready to go
- Obtain Key Insights: Track vehicle location and performance for improved fleet productivity
- Improve Driving Behavior: Eco-driving teaches good driving habits

AN INVALUABLE FRAME OF REFERENCE

Mobilisights will leverage vehicle data to inspire innovative applications and services that can help transform and improve the day-to-day lives of users and businesses. Built on a foundation of trust, customers can opt out of information being collected, used or shared, even after they have given consent. Sensor and other data available from connected vehicles can enable a wide range of services and applications with compelling benefits, ranging from personalized usage-based insurance to road hazard detection and traffic management. Stellantis has extraordinary global data capable of powering Mobilisights forward.

POWER SHIFTS

Stellantis is executing a comprehensive electrification strategy to deliver exciting, innovative vehicles for our iconic brands that offer advanced technology at affordable prices. This is driven, in part, by our customers who consider preserving the environment as an important value.

This is why “We Care for the Future” is one of the core values underpinning our corporate purpose: “Powered by our diversity, we lead the way the world moves.” We are setting the course for 100 percent of sales in Europe and 50 percent of sales in the United States to be Battery

Electric Vehicles (BEVs) by the end of this decade. And we plan to offer more than 75 BEV models and reach global annual BEV sales of 5 million units by 2030.

We know that range, charging time, affordability and choice are of prime importance to our customers. Our plan includes four state-of-the-art BEV-centric vehicle platforms (STLA Small, Medium, Large and Frame), three Electric Drive Modules (EDMs) to provide modularity and performance, and two battery cell chemistries to ensure affordability for all. These combinations are targeted to offer industry-leading

features and generous driving ranges.

Beginning in 2026, the two battery chemistries will share the same cell-to-pack installation which will be upgradeable to respond to customer needs, along with improvements in energy density and charging speed. In addition, our first competitive solid-state battery technology is targeted for introduction by 2026.

Stellantis Fleet & Business Solutions helps make us a prominent global player in light commercial vehicles. Given the key roles these vehicles play in our communities, we’re also applying our low-emissions

propulsion technologies to them, including plans for emissions-free hydrogen fuel cell power.

Just as important, our electrified vehicle designs aspire to be easily upgradeable in the future, with hopes to extend their lifespans and bring even more value to consumers. Also, we are working with partners to develop next-generation batteries for Low-Emission Vehicles (LEVs) that will deliver greater Electric Vehicle (EV) range, fast recharge times of 20 miles (32 km) per minute and longer life.

[†]Payload and Max Trailer Weights are ESTIMATED values. All values are shown in lb unless otherwise stated. Payload and Max Trailer Weight values are rounded to the nearest 10 lb. Payload = GVWR - Base Weight. GAWRs, GVWRs and GCWRs should never be exceeded. Recommended tongue weight determined by class of hitch receiver and hardware limits of upfit. Upfit or aftermarket equipment weight not included in Base Weight. Frontal Area: maximum allowable Frontal Area, in ft-squared, that the vehicle can project. For details on calculations, please refer to Ram Body Builders Guide. If VECI Label and Max Upfit Weight are not available, then the vehicle is not restricted to MCWV, Frontal Area or Maximum Upfit Weight limits; however, GVWR/GAWR/GCWR cannot be exceeded.

**Payload and Max Trailer Weights are ESTIMATED values. All values are shown in lb unless otherwise stated. Payload and Max Trailer Weight values are rounded to the nearest 10 lb. Payload = GVWR - Base Weight. GAWRs, GVWRs and GCWRs should never be exceeded. Recommended tongue weight determined by class of hitch receiver and hardware limits of upfit. Upfit or aftermarket equipment weight not included in Base Weight. Frontal Area: maximum allowable Frontal Area, in ft-squared, that the vehicle can project. For details on calculations, please refer to Ram Body Builders Guide. If VECCI Label and Max Upfit Weight are not available, then the vehicle is not restricted to MCVW, Frontal Area or Maximum Upfit Weight limits; however, GVWR/GAWR/GCWR cannot be exceeded.
